

Advance Notice and Call for Abstracts

**Deadline for Abstracts is
February 20, 2015 at 17:00
Eastern Time**

Come and share your knowledge,
experiences within the field of
health informatics

See the following page for details
for submitting an abstract

The Canadian Nursing Informatics Association (CNIA) and the Ontario Nursing Informatics Group (ONIG), in association with COACH, are hosting a one day conference as an added event to eHealth 2015.

The one day conference will take place on May 31, 2015, in Toronto, at the Metro Toronto Convention Centre.

The title of the conference is **Nursing Informaticians – *Making Connections*** and will consist of featured speakers and concurrent sessions. Mark the date in your calendar and plan to attend to *network, learn and share*.

Sunday May 31, 2015

Metro Toronto Convention Centre

Deadline for submission is February 20, 2015 - 17:00 Eastern Time

THEMES for the workshop:

- Nursing Informatics connections and partnerships within your organization and/or across diverse healthcare sectors
- Successful relationship building within the Informatics sphere
- Staying connected with social media or mobile technology
- Informaticians influencing nurses' work practices and workflow systems
- Meeting the patients', families' health information needs
- Supporting ehealth benefits evaluation

HOW TO APPLY

- Before you begin you should prepare your abstract (up to 200 words), a brief biography (up to 50 words), and a brief descriptor of your presentation for inclusion in the conference brochure (up to 50 words) in MS Word format so that you can cut and paste into the appropriate sections of the online form.
- All abstracts must be submitted online - Please visit the CNIA website at: www.cnia.ca under the **EDUCATION** tab click on **CNIA conference**

CONTENT

- Concurrent sessions will be 25 minutes including 5 minutes for questions.
- We encourage presentation of the following types of projects: unique connections/partnership, quality/performance improvement, change management, novel informatics applications, and research.

SELECTION PROCESS

- Selection criteria include relevance to conference theme, value for nursing informaticians and innovativeness of initiative.

NOTIFICATION PROCESS

- Selection for concurrent sessions will be completed and all authors will be acknowledged by email by March 16, 2015
- Successful authors must indicate their intent to present by March 30, 2015 to be included in the final conference brochure.

OTHER INFORMATION

- Presenters are responsible for all expenses incurred and must register for the conference by April 2, 2015.
